

ART ADVANCED - 2 DIMENSIONAL

7th and 8th graders who have successfully completed Art – Design may enroll in this class. This course will provide an opportunity for the serious art student to focus on the development of advanced skill in drawing, painting, and other two-dimensional art forms. Effective and inventive use of media and an opportunity for employing unique approaches to drawing will be emphasized. Exploring the processes of printmaking, photography, and batik will additionally challenge students. Creative integrity and originality will be a major focus.

Students will learn that studying, creating, and enjoying art can become a life-long pursuit, and art-related careers will be explored. The concept that art is a living heritage will be reinforced through lessons involving the analysis and appreciation of American and international art. Students will gain skill in evaluating and critiquing their own art and the work of others.

Art lessons will support District goals by providing activities, which develop academic skills and assist students in meeting grade-level expectations.
